**Subject:** FW: Walgreen Co.  
**Attachments:** District 37 Hydrocodone 10-325 Purchases.xlsx

Good Morning Ben,

Cardinal has contacted me with regards to store 05315. Cardinal will no longer send any orders to store 05315 for Hydrocodone 10/325MG tablets. If store 05315 creates any future orders to Cardinal, these orders will be cancelled and Cardinal will fax the DEA the order as suspicious. We would like to avoid the store from being reported to the DEA, can you inform the store not to place an orders to Cardinal for this item.

I would also like to bring to your attention store 05315 has purchased more Hydrocodone 10/325MG then the rest of your district over the last 13 weeks. I do understand this location does a high volume of prescriptions, however I believe there could be an opportunity to review the GFD policy. Please see the attachment to get a better understanding of my concerns.

Let me know if you have any questions.

Thanks

Be Well,  
Steve

**Subject:** Walgreen Co.

DEA # **AW2724551** has reached its maximum accrual limit for **Hydrocodone** for this accrual period. The following drug orders from Order # **9371681 & 9383166** have been cut, reported as suspicious to the DEA, and will not be shipped:

- Both 10-325mg orders were too large and would put the accrual past the allowable 15%

After review of available information, I have determined that a threshold adjustment is not warranted, and the customer's threshold will remain at **7,000**.

If something has changed within the customer's business model, please let me know and I will review all additional information to determine whether a threshold increase is warranted. Please be aware that supplying additional information does not automatically warrant an increase in threshold.
